Haha!! :)
RELAX!!! It's fun messing with u :P

Since I don't believe that u actually leave the office, I am get you a sleeping bag and some aspirin (for your heart attack)? Haha
Go home and get some rest.

See ya later....Good Luck on Tuesday.

Hahah!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Dude, you had me freaked out! I'm sitting at my office ready to cry!!!!

Haha!

And I wasn't going to say anything about your days, you know? That's your business, not like that other district court ADA!

I'm ok now, just a slight heart attack! :)

Just messing with u. I will be working on my furlough days at the lab (whenever I decide to take them).

As for the case, whatever works with your schedule.

So, the [REDACTED] trial is on for Tuesday,

Hopefully we can pick a jury and get started that day. I'm going to try to get a stipulation as to the drugs, but I am not sure about this defendant; he's been really difficult.....

I may call you on Wednesday....and I looked at your schedule, it may work...

I will call you Tuesday to let you know if it's cool.

Thanks!

GP

Subject: New Regulations in the Massachusetts DMV Handbook

This just in:

New Regulations in the Massachusetts DMV Handbook:

1. Turn signals will give away your next move. A confident driver avoids using them.
2. Under no circumstance should you maintain a distance between you and the car in front of you, because the space will be filled in by somebody else, putting you in an even more dangerous situation.
3. The faster you drive through a red light, the less chance you have of getting hit.
4. WARNING! Never come to a complete stop at a stop sign. No one expects it and it will result in your being rear-ended.
5. Never get in the way of an older car that needs extensive bodywork, especially with RI, VT or ME plates. With no insurance, the other operator probably has nothing to lose.
6. Braking is to be done as hard and late as possible to ensure that your ABS kicks in, giving a vigorous, foot massage as the brake pedal violently pulsates. For those of you without ABS, it's a chance to strengthen your leg muscles.
7. Never pass on the left when you can pass on the right. It's a good way to prepare other drivers entering the highway.
8. Speed limits are arbitrary figures; given only as a suggestion and, in any case, are not enforceable during rush hour.
- 9 Just because you're in the left lane and have no room to speed up or move over doesn't mean that a RI driver flashing his high beams behind you doesn't think he can go faster in your spot.
10. Always brake and rubberneck when you see an accident or even someone changing a tire. This is seen as a sign of respect for the victim.
11. Learn to swerve abruptly without signaling. This is the home of high-speed slalom-driving thanks to the Department of Transportation, which puts potholes in key locations to test drivers' reflexes and keep them alert.
12. It is tradition to honk your horn at cars in front of you that do not move three milliseconds after the light turns green.
13. To avoid injury in the event of a collision or rollover, it is important to exit your vehicle thru the windshield right away. Wearing your seat belt will only impede your hi-velocity escape from danger.
14. If traveling around Boston, remember that the goal of every driver is to get ahead of the pack by whatever means necessary.
15. 'Flipping the bird' is considered a polite salute. This gesture should always be returned.

PS: [REDACTED] We will see you in a few weeks. Say Hi to [REDACTED] for
us.
